For release 24th July 2009

## Green Loans Go Free! A loan that won't cost the earth.

**Hunter United is pleased to offer their new interest free Green Loans so the people of the Hunter can now save money whilst helping to save the planet!**

As the first Hunter-based financial institution to join forces with the Australian Government's Green Loans program, **Hunter United** is proud to be able to offer loans with 0% interest and \$0 application fees. **Hunter United's Green Loan** is, in fact, a FREE LOAN! Free of all fees, charges and interest\*.

The loans are specifically designed to cover the costs of home improvements to make an existing home more energy and water efficient. The features of Hunter United's Green Loans include:

**• Zero interest • Zero application fee • Zero monthly fees • Amounts from \$1,000 - \$10,000 up to 4 year loan term • Additional payments permitted • No penalty for early repayment (after 3 months)**

Hunter United's Managing Director, John Ford said "This new Green Loan means many people who thought they couldn't afford to take the steps necessary to reduce their carbon footprint *and* reduce their ongoing energy and water usage costs now have the Green light! With free Home Sustainability Assessments, Hunter United's free Green Loans combined with the governments rebates makes solar heating, water tanks, insulation and grey water systems within the reach of most households. It's a win-win situation... the borrower benefits, the environment benefits and we gain new borrowing members".

The Australian Government Green Loans Program is available now and potential participants can call Hunter United Credit Union on **4941 3888** for more information. Alternatively, go to **[www.hunterunited.com.au](http://www.hunterunited.com.au)**
